

## Upset函式

目的：將json data轉為upset plot形式呈現

所需參數：json資料、division id(html)

可進行操作：

- 下載PNG/SVG檔

html

```
<script src="https://unpkg.com/@upsetjs/bundle"></script>  
<script src="upset_plot_example.js"></script>  
<div id="upsetPlot" style="width: 1500px; height: 800px;"></div>
```

javascript

```
function upsetplot(divid, data)
```

## Json data input

```
const data = [  
  { name: 'S1', elems: [0,1,2] },  
  { name: 'S2', elems: [1,2,3] },  
  { name: 'S3', elems: [0,2,4] },  
];
```

# Output
